Memo No.: 38 (24)/PBSSM-17011/7/2024-MIS SEC-PBSSM

Date: 01.09.2026

To

The District Education Officer
(All Districts)

Subject: Organization of APAAR Enrolment Camps

You are already in receipt of the next steps to be taken for enrolment of school students under the APAAR framework through Generation of their APAAR IDs with UDISE+. This office is now awaiting a detailed step-by-step SOP from the MoE in this regard and the same is to be shared with you immediately upon receipt.

2. The initial stage for this process has already been undertaken through a two day long camp at Kolkata, wherein training has been imparted to one Nodal Teacher and an MIS Coordinator for each District and one Nodal Teacher for each Circle in Kolkata Educational District. The theoretical insights and practical hand holding provided to each of these trainees in that camp, will now enable them to act as resource persons for their Districts/Circles. The First batch of School Students in the State covered under this camp comprise the nucleus of the massive population of Pupils for whom this enrolment drive is to be undertaken.

3. For a state wide rollout of this initiative at the earliest, the following way forward is delineated:

- i. APAAR Enrolment camps are to be organized in at least two schools in each District, with at least two classes each, on Wednesday 02nd September 2026.
- ii. The said camps are to be attended by parents of students apart from an optimal number of students themselves (around 60 or more).
- iii. The two nodal resource persons already trained at Kolkata in the last 2 days long workshop are to take lead in these camps.
- iv. Nodal teachers along with Circle MIS Co-ordinators from each circle to be nominated and they should attend on Wednesday. In case a Block MIS Co-ordinator is not available, the Block Data Entry Operator may attend in their place.
- v. The circle wise nodal teachers to be responsible for conduct of similar drives in circles
- vi. DEOs are advised to get requisite numbers of parental consent forms printed for supplying to the schools as required.
- vii. While initially 50 students from each of the two schools per District may be planned for, if more students could be accommodated on the first day itself that would also be allowed. Parents of these students to be requested to be present.
- viii. Circle wise camps may be planned on 07th September 2026, in a similar fashion, with two schools at each circle. School wise nodal teachers may be trained on that day, and 50

- students at each host school (among the 02 Circle wise selected schools), and their parents may be called upon to attend.
- ix. From 10th September 2026 onwards, the initiative should likewise be repliated at each school accross the State, with a target of APAAR enrolment of at least 50 students per school per day, with receipt of parental consents.
 - x. In this drive covering all the schools, the school nodal teachers, trained and sensitized from the Circle level camps, are to take leading roles at their respective schools.
 - xi. In case of larger schools, the respective heads of institutions will be at liberty to include further numbers of teachers under the guidance of their school nodal teachers to meet their requirements and to expedite the process.

4. A reporting system based on a Google sheet may be filled up by each DEO at the end of each day to track District wise coverage. The DEOs may, in turn, collect and collate daily reports from each circle, and similarly, each SI should gather and compose such reports form individual schools every day.

5. Meanwhile the undersigned has been in telephonic conversation with Director SED, MoE, and has came to learn that an SOP for the entire process of APAAR ID creation is to be received by 31.09.2026, with due approval from the MoE. The same will be shared with you immediately upon receipt

Yours faithfully,

Vijay
State Project Director
