Sub: Dissemination and Display of Learning Outcomes Posters for FLN Classes

Madam / Sir,

As you are aware, IN Foundational Literacy and Numeracy Programme under NIPUN Bharat Mission, the focus has shifted from mere completion of syllabus to achievement of Learning Outcomes. In this context, it has been decided to disseminate and display Learning Outcomes Posters for Balvatika (Pre Primary) to Primary classes in all schools.

You are well aware that the Learning Outcomes Poster displayed in every classroom is a powerful pedagogical tool. The importance of the same is stated below:

Importance of Learning Outcomes Posters for the FLN Programme:

1. Provides Clear Direction to the Teacher:

The poster acts as a compass. It clearly defines what a child of Balvatika / Class 1 / Class 2 / Class 3 should know and be able to do by the end of the year. It helps the teacher to plan lessons, create activities, and assess children against specific competencies, rather than reading text.

2. Makes Learning Visible for Children and Parents:

When learning goals are displayed in simple & child-friendly language with pictures, a child can easily visualise and relate to the content. Parents, Inspectors and Community members who visit the schools can also get to know the expected standards and support their children at home.

3. Ensures Competency-Based, Not Content-Based Education:

FLN is about foundational competencies — reading with understanding, writing with meaning, and numeracy with logic. The poster reminds the teacher every day that the goal is not only to finish the book, but to ensure that every child attains the foundational skills of literacy and numeracy.

4. Facilitates Continuous and Formative Assessment:

The poster enables the teacher to constantly check — "Has my child achieved this outcome? Who needs extra support?" It becomes a ready checklist for tracking child-wise progress and for providing remedial teaching.

5. Creates Accountability and Transparency:

A publicly displayed poster creates shared accountability. The Teacher, the Head Teacher, the Para teachers, and the parents all know the benchmark. This ensures transparency in the teaching-learning process.

6. A Low-Cost, High-Impact Academic Support:

It is a constant academic guide on the wall. It does not require much resources. Yet, it influences classroom practice every single period.

Thus, if the textbook is the vehicle, the Learning Outcomes Poster is the destination board. Without it, we may travel, but we will not know whether we have reached our goal of ensuring Foundational Literacy and Numeracy for every child or not.

In view of the above, you are requested to take following actions on priority basis:

a) Printing and Display in Classrooms: The Learning Outcomes posters for Balvatika, Class 1 and Class 2 shall be printed at school level in colour and displayed in the respective classrooms. This printing cost may be incurred from Composite Grant. (soft copy of LOs enclosed)

b) Display at Prominent Place for Guardians: One set of posters shall also be displayed in a prominent place of the school i.e. near office / entrance / notice board for guardians.

c) Sharing of Soft Copies: The soft copies (PDF/JPEG) of the posters shall be shared by the Head Teacher/Class teachers in the respective Guardian WhatsApp Groups.

d) Orientation of Teachers: All Primary Teachers must be made aware of the Learning Outcomes of FLN and instructed to follow the same in their daily teaching.

The action taken in this regard may be submitted to this office within 15 days.

Yours faithfully,

Encl: As stated
